Gov. Scott Walker, Republican Leadership Side With Out-Of-State Billionaires Over Wisconsin Businesses and Wisconsin's Working Class Families

MADISON –Wisconsin State Representative Cory Mason (D-Racine) released the following statement regarding the latest Wisconsin GOP attack on working class families:

“Governor Walker and Republican leadership wasted no time taking aim at their favorite target: Wisconsin’s working-class families and small businesses.

“In two weeks’ time the Legislative Republicans have rushed through an extreme piece of legislation which robs Wisconsin workers of their basic rights and workplace freedoms, drives down wages, makes workplaces less safe, criminalizes small business owners, and ends decades of established labor peace in our state.

“This is another example of Scott Walker sacrificing Wisconsin’s middle class on the altar of his presidential ambitions.

“At a time when our state is still lagging behind in job creation and wage growth we should be investing in workers instead of continuing to rig the game for corporate special interests. There is no demand from working-class communities like ours in Racine or elsewhere across the state to implement this law, but Republicans have made it crystal clear that their interest lies in tilting the table in favor of those at the very top at the expense of our neighbors and families who only seek to achieve the American Dream.”
